

# Spill Kits Bodily Fluids

## E-Learning

Training in how to handle spills of bodily fluids with the use of spill kits.

**15** minutes

Online Learning

Institution of Occupational  
Safety and Health

### About the course

The course aims to ensure the delegate is working towards compliance with The Control of Substances Hazardous to Health Regulations (COSHH) 2002 and how to effectively deal with a spill as well as what procedure they should follow, including what is in a spill kit.

### Available in over 35 languages

Our courses are machine translated\* into a variety of popular International languages, so regardless of location or language preference, we've got you covered. Our machine translated content includes the translation of course transcripts and test questions.

\*Content which is not English may be machine translated and is for assistive purposes only. We cannot guarantee the accuracy of translations.

### Who should attend

This course is suitable for learners who need an awareness of how to handle spill kits with bodily fluids. It aims to teach learners the best practices surrounding the handling of a spill of bodily fluids. Additionally, it looks into the dangers associated with the spillages.

### Course syllabus

The course modules cover:

- Spill kits
- Dealing with a spill.

### Certification

Delegates will receive a HSS printable certificate in Spill Kits - Bodily Fluids upon completion of the course.

This course is approved and accredited by IOSH, Skills for Care.
